2008 SAUVIGNON BLANC OKANAGAN VALLEY BC VQA

WHITE WINE | VIN BLANC
PRODUCT OF CANADA | PRODUIT DU CANADA

2008 Harvest Report:

Cooler than usual April weather delayed budburst by two weeks but was followed by warm and dry flowering conditions, which led to excellent fruit sets. The growing season was steady and finished with warmer-than-normal temperatures. Excellent vine management, tight pruning regimes and irrigation control allowed the fruit to reach full ripeness. The whites are fresh, crisp and full-bodied with excellent balance.

Tasting Notes:

Unoaked. Bursting with fruit and a touch of herbaceous zest. Wonderfully dry, crisp and refreshing.

Winemaker's Notes:

100% Sauvignon Blanc | Okanagan Valley BC VQA

13.5% alc./vol. | Unoaked | T.A. 6.0 g/l | 750 mL

Vineyards: Kelowna 45%, Oliver 33%, Naramata 16%, Osoyoos 6%

UPC: 7-76545-30004-1

Help protect the Great Bear Rainforest:

BC's Great Bear Rainforest is 21 million acres and is the largest coastal temperate rainforest in the world. It is home to grizzly bears, coastal wolves, salmon and the rare white Kermode or "Spirit" Bear, which exists nowhere in the world besides this rainforest. Protecting habitat of this "umbrella" species will protect many other species.

15% of our sales will be donated to marine and rainforest conservation in the Great Bear Rainforest.
